Dear Mr McCreesh

TRAFFIC CALMING PROPOSALS FOR BRACKEN RIDGE NEWMILLS

Following a number of representations regarding vehicle speeds on Bracken Ridge Newmills, DFI Roads carried out a traffic calming assessment and are proposing to introduce traffic calming measures within the 2022/23 financial year.

I would be most grateful if you could bring this letter and attached scheme layout drawing to the attention of the elected representatives for this area and your technical services team for due consideration.

If you wish to comment on this proposal, you can do so by writing to me at the above at the address.

If you have any questions, please do not hesitate to contact me for further information.

Yours sincerely

pp

Brendan Elliott
Network Development 2

Traffic Calming Scheme Procedures:

Consultation — Preliminary design is presented for comment to the police, emergency services, Translink, local residents representatives & other interested parties. The needs of cyclists are also taken into account.

Final design — Follow consultation, final design is prepared and the statutory legislation process can begin.

Statutory notification — Traffic calming proposals are published in the local press as part of the statutory requirement. Interested parties have the opportunity to comment on the proposal within a 31 day period from the date of advertisement.

Construction — Following the resolution of any objections the scheme will then be forwarded to a Roads Service contractor for construction during the financial year. Some disruption is likely during construction.

Monitoring — The effect of the traffic calming scheme is monitored taking into consideration the before and after collision history and reduction in vehicle speeds.

One of the keys to a successful scheme is local community involvement. Local concerns identified through well planned consultation will help ensure that the appropriate measures are provided in the necessary locations to meet expectations of residents.

For further information, provide comments to the proposals shown overleaf please contact:

Any comments to the proposals should be submitted within 15 day from receipt of this notice

Confidentiality of Responses to Consultations:

The Department may publish a summary of responses following completion of the consultation process. Your response, and all other responses to the consultation, may be disclosed on request. The Department can only refuse to disclose information in exceptional circumstances. **Before** you submit your response, please read the paragraphs below on the confidentiality of consultations and they will give you guidance on the legal position about any information given by you in response to this consultation.

The Freedom of Information Act gives the public a right of access to any information held by a public authority, namely, the Department in this case. This right of access to information includes information provided in response to a consultation. The Department cannot automatically consider as confidential information supplied to it in response to a consultation. However, it does have the responsibility to decide whether any information provided by you in response to this consultation, including information about your identity, should be made public or be treated as confidential. If you do not wish information about your identity to be made public please include an explanation in your response. This means that information provided by you in response to the consultation is unlikely to be treated as confidential, except in very particular circumstances.

For further information about confidentiality of responses please contact the Information Commissioner's Office (or see web site at: www.informationcommissioner.gov.uk).
