1.0	Purpose of Report			
1.1	The report provides members with information on the review of Council's performance against our seven statutory and three corporate performance improvement indicators and standards, along with an overview of the Corporate Health Indicators for the first six months of 2022/23. The report also provides a performance progress summary against the Council's four corporate improvement objectives and their associated project. The indicators and standards, the 4 improvement projects and corporate health indicators are contained within our Two Year Performance Improvement Plan for 2021/22 to 2022/23.			
2.0	Background			
	Council Discharging Duties under the Local Government Act (NI) 2014			
2.1	Part 12 of the Local Government Act (NI) 2014 sets out a General Duty of Improvement in that, "a Council must make arrangements to secure continuous improvement in the exercise of its functions". The legislation sets out that a Council must consult upon and publish an annual forward looking Performance Improvement Plan by 30 th of June each year, setting out how it aims to make arrangements to secure improvements in the "exercise of its functions".			
2.2.	The process of developing the Council's improvement objectives involved engagement between Senior Management, Heads of Service and the Democratic Services Team. This engagement identified potential areas for improvement across the council from which four proposed improvement objectives where identified for consideration and approved by elected members as a focus for continuous improvement.			
2.3	The Council's four improvement objectives, rationale and associated links to the Community and Corporate Plan were considered and approved by elected members at their March 2021 Policy & Resources committee meeting for public consultation. The outcome of the consultation undertaken throughout March to April 2021, and a report on the final improvement objectives were			

	considered by Senior Management, and subsequently considered by elected members for approval at their April 2021 Policy & Resources Committee before being considered by Council. The four improvement objectives would form part of our two year Performance Improvement Plan 2021 to 2023				
2.4	Each improvement objective is aligned with an improvement project and associated activities/measures. Each project is under the direction of senior responsible officer (Assistant Director or Head of Service). This report offers details of our six month progress, Quarter One (Q1) and Quarter Two (Q2) in delivering the Improvement Objectives contained within our Performance Improvement Plan 2022/23.				
	The Corporate Improvement Objectives, which form the 4 Corporate Improvement Projects for 2022/23 are:				
	 Mid Ulster District Council will seek to reduce the environmental impacts of our own activities and will contribute to the improvement of the wider environment through local action - currently there are 18 improvement activities/measures. We will ensure a more connected Mid Ulster where new technologies 				
	 and ways of working, empower citizens to get the best services that matter to them – currently 5 improvement activities. 3) To create cleaner neighbourhoods, where everyone takes responsibility for their waste and the environment – currently 9 improvement activities. 				
	 4) We will contribute to the ongoing regeneration of our district by delivering a capital investment programme, enhancing facilities and opportunities for local people – currently there are 3 improvement activities. 				
2.5	The performance/progress of the Council's four Corporate Improvement Projects 2022 - 2023 (CIP's) are found in Appendix One (Corporate Improvement Projects Six Month Progress Update: Q1 – Q2 2022/23)				
	Statutory & Corporate Performance Improvement Indicators/Standards.				
2.6	Local Government (Performance Indicators and Standards) Order (NI) 2015 has specified performance indicators and standards for Mid Ulster District Council on Economic Development, Planning and Waste Management (there are currently seven statutory indicators/standards). Statutory indicators and standards/targets have been set by the former Department of the Environment (now Department for Communities), on which to report annually, as part of the performance improvement arrangements for district councils, (hereafter referred to as statutory "set for us" performance measures). The aim of the performance measures is to promote the improvement of service delivery for the functions specified.				
2.7	Council has identified three self-imposed performance improvement indicators and standards (continued from 2021/22) and hereafter referred to				

as "self-imposed" performance measures. These form an integral part of our Performance Improvement Plan for 2022/23. Taken together all ten measures (statutory and self-imposed indicators) feed into the Corporate Performance "Health" Indicators/Measures (of which there are 28 in total – see 2.7). All of the performance indicators, statutory, self-imposed and organisational health indicators, are considered as forming part of our day-to-day business and act as a barometer of how the Council is improving corporately. The Performance Progress of the "statutory" (that is set for us) and "self-imposed" (that we have set for ourselves) indicators/standards is outlined in Appendix Two (refer to Appendix Two - Statutory & Corporate Performance Improvement Indicators - Six Month Progress Report Q1 to Q2 2022/23).

Reporting on the Councils Corporate "Health Indicators"

The committee previously agreed a suite of "*Corporate Health Indicators*" for reporting on to elected members. Reporting on the Corporate health indicators provides a barometer of how the council is doing across its services; Indicators are effectively a 'performance dashboard', providing a summary of how the Council is doing across 8 key areas:

- Economy
- Waste management
- Council facilities
- Better responses
- Resident satisfaction
- Staffing
- Engaged workforce
- Finance
